ACCESS IDAHO USER NAME & PASSWORD

The online licensing system has been designed to allow greater protection for your personal information. You will use an **Access Idaho** username and password to access your IREC licensing information. After creating an **Access Idaho** username and password, you will then associate your licensing information to that username and password using your license number and association key.

Once you've established your Access Idaho username & password and associated your IREC licensing information to that username, you can change the association key for privacy reasons. If you wish to prevent someone who knows your personal information and/or your current "association key," you need only change your personal "association key."

Office Managers, you can create a user name and password for yourself and then associate any number of licensees to your Access Idaho account as long as you know the license number and correct association key.

OFFICE MANAGERS

- 1) If you have "associated" more than one licensee to your Access Idaho account, you will need to select which licensee you are going to do online licensing functions for when you logon. (Note: The "association key" has no relationship to the licensees' company/designated broker association. To change that information you must select the designated broker of the company at this point in the procedure.)
- 2) To add another licensee to do online licensing changes for, click on "Add Another Licensee."
- 3) To remove a licensee that you are authorized to process online licensing for, click on the "[remove]" link at the right of the licensee's name. **Note:** The "association key" has **no** relationship to the licensees' company/designated broker association, only the broker can change that information.
